1. Radio/Radar

25X1

The following installations were observed during the period of report:

- a. A single Kniferest was frequently in operation at MR 347 972.1
- b. A Token and a Fishnet were located at MR 357 971, the Token being in operation almost continuously during daylight hours during the period.
- c. A VHF Disc Cone (cage type consisting of 2 concentric rings with a wire system in between) surmounted a single mast at MR 333 966.
- d. On 2 occasions only, an unidentified antenna system reported as resembling an inverted rake with 6-7 prongs has been observed surmounting a single mast on a site approximately 300 meters northeast of the VHF Disc Cone. A similar antenna system was observed on two occasions during February on a nearby large building. This aerial has never been observed erected for longer than a day at any one time.

2. Observation Post

A carefully camouflaged semi-underground observation post has been constructed between the VHF Disc Cone site referred to in para. 2 (c) above, and the nearby road leading to the village of Randow. On several occasions the guard, carrying binoculars, has been observed being relieved at this post.

3. Local Gossip

Small numbers of KVP (Luft) personnel have frequently been observed in the town of Wittstock during the period of report. [redacted] were practicing flying on jet fighters at the nearby Wittstock airfield.
